

HELP FIRE
SURVIVORS

Kid's CARE PACKAGES

So many of our fire survivors include children. Children are more vulnerable than adults in emergency situations. During times like these, it's important for kids to simply, be kids.

805Help (formerly ThomasFireHelp) connects help with need on a grassroots level. We are an online platform where disaster survivors can quickly find what they need, from initial food and shelter to longer-term needs like housing, goods, and services. We've built a central hub for resources so survivors can connect with the help they need in one location.
